

Press release Light + Building 2010

11th April 2010 : Stefaan Wauters, new Managing Director of Vergokan

As from the 1st of March 2010, Stefaan Wauters became the new Managing Director of the Belgian Vergokan Group.

Stefaan Wauters has been active for more than 13 years as Managing Director for the ISOCAB Group, a multinational belonging to the German Group ThyssenKrupp Steel.

Stefaan Wauters believes and wants to realize a further continuous growth of national and international activities for the Vergokan Group. He also strongly believes in a continuous growth in turnover and EBIT for the entire group.

The Vergokan Group, specialized in metal processing and finishing, offers a complete range of cable support systems based on its fully integrated activities. The Vergokan Group has its headquarters in Oudenaarde, 2 Belgian production units in Kruishoutem and Moeskroen, and a new Russian production unit in Redkino (Tver Region).

Vergokan NV manufactures and markets standard and tailor-made solutions in the field of cable support systems for electrical installations. Vergokan NV is only manufacturer of cable support systems in Belgium, and is also market leader in its home market. The company exports worldwide its products, especially to both Western and Eastern Europe, as well as Russia and the Middle-East.

The other integrated activities are also located in Belgium and offers galvanization by Vergo Galva, and powder coating by Vergo Coating.

Also Grada International belongs to this Vergokan Group, as niche player in steel and aluminium grilles, ceiling ornaments, vents and accessories for airconditioning installations in non-residential markets. The company has a sales office and factory at its headquarters in Lokeren and a French sales office in Gennevilliers.
