

ATKORE VERGOKAN

COMPANY PROFILE

Building better together.

Atkore[™]
Vergokan

About us

Vergokan manufactures and sells metal cable support systems.

The company boasts three manufacturing facilities in Belgium and one in Russia, exporting its products to Western and Eastern Europe, the Middle East, Russia, Africa, South America and Oceanië.

The applications for these cable support systems are to be found in office buildings, industry, tunnels, hospitals, shopping malls, sports stadiums, stations etc.

Long-term partnerships

Ever since the year in which it was established (1982), Vergokan has always set store by building up long-term partnerships in which every customer is provided with a personal and professional service.

Extended range

The product range has grown down the years to as many as 6,000 products. The range includes standard cable trays, wire cable trays, cable ladders, floor trunking systems, industrial floor trunking and all the assembly systems to go with them.

Enthusiastic team

An enthusiastic team of qualified, well-trained and motivated employees are ready on a daily basis to take on the many challenges in our industry with confidence and experience.

Customized work

Have you reached a dead end with standard products? Vergokan offers customization in response to a simple request from the customer. We are able to achieve this with our in-house manufacturing within short lead times.

Surface treatments

Vergo Galva is specialized in the thermal galvanization of steel structures. This technique allows the steel to resist much longer to corrosion

Vergo Coating offers different techniques for metal protection. In addition to sandblasting and metallization, the company is mainly specialized in powder coating. For this purpose, it applies an even and impact-resistant lacquer coating.

Part of Atkore group

Since October 2018 Vergokan is part of Atkore International Group Inc. Atkore International is an American listed company and has taken a first step on the European mainland with the acquisition of Vergokan. Atkore is a leading manufacturer of electrical products primarily for the non-residential construction and renovation markets and Mechanical Products & Solutions for the construction and industrial markets.

The company manufactures a wide range of end-to-end integrated products and solutions essential to its customers' businesses and employs approximately 3,900 people at 66 manufacturing and distribution facilities worldwide. Atkore is headquartered in Harvey, Illinois.

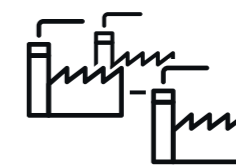

Atkore's portfolio of quality brands - including Unistrut and Flexicon - enables Vergokan to offer its customers a total solution.
