

HOLD THE CABLES. HUG THE RUNG®.

Talon® cable cleats are designed and tested to protect high voltage, medium voltage and low voltage cables from mechanical damage resulting from short circuits. They also provide superior strain relief for vertical cable installations.

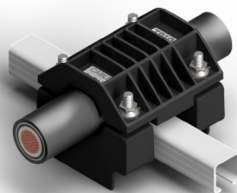

Available for KLM100,
KLM125, KLW & KLZ.

Features:

- **Fast Installation** simple 3-step installation to mount onto cable ladder rungs.
- **Cable protection** completes the cable protection package and is reusable after a short circuit.
- **Maximized uptime** 10+ years service life with industry leading UV protection.
- **Rigorous 3rd party** tested in accordance with ASTM B117, IEC 60695, IEC 61914, NEMA BI 50018, ISO 4892-2, UL 94, and UL 2239.

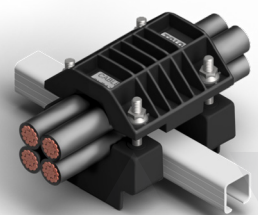

T1 Cable Cleats

Optimized for single cables but may also be used to secure bundles of two or more.

T3 Cable Cleats

Optimized for two or three cables but may also be used to secure a single cable.
