Quality policy

Vergokan Atkore is specialized in metal cable management and metal framing systems for the commercial and industrial markets, infrastructure projects and OEM businesses, with a regional focus that spans Europe.

The Vergokan business culture is focused on Customer Intimacy and Customer Centricity, with long-term sustainable partnerships. This is also reflected in the mission of Atkore.

The state-of-the-art production facilities, warehouse and logistics, supported by SAP, offer flexible service and high qualitative products according to the applicable international standards. Continuous improvement is implemented in the quality management system according ISO9001 and in Atkore's Business system. (ABS)

Oudenaarde,

Gino Declercq

Managing Director Atkore Europe
Cable Management & Protection
