LOAD DIAGRAM
This diagram illustrates the permissible uniformly distributed loads applied to multiple supports. They comply with IEC 61537 with connection in the centre of the span and the end span = 0,8 x the span.

F = max. admissible load (daN/m)
L = support distance (m)
Max. deflection (m) = L/100

For widths > 400 in combination with a cover: Please state explicitly in the order.

Legend finish
- DF = Defender

Fix with:

Joiner
V110.200

Toothed round head bolt / flange nut
