

VFUL35

Wire cable tray

Screen: 50 x 100 mm
 Cross-wire: Ø 3.50 mm
 Lengthwise wire: Ø 4.50 mm

Reference	Finish	↑ mm	↔ mm	→ ← mm	↔ mm	kg/m	📦	Unit

LOAD DIAGRAM

This diagram illustrates the permissible uniformly distributed loads applied to multiple supports. They comply with IEC 61537 with connection to 1/5 of the span and the end span = 0,8x the span. When the joint is situated in the centre of the span, a reduction of 0,7x the admissible load is to be taken into account.

Fix with:

Snap quick-joiner for VFU(L)35 KPVFL35
 Joining clamp VFK

F = max. admissible load (daN/m)
 L = support distance (m)
 Max. deflection (m) = L/100

VFUL30.065 coupling only with VFK.
 Our VFUL35 wire cable tray is now available in zinc aluminum (ZA). This coating offers at least as much corrosion resistance as the standard hot-dip galvanizing process.
 Zinc aluminum (ZA) is identified with a small plate.

Usable inside height: outside height - 7mm
 Usable inside width: outside width - 15mm

Legend finish
 - SZ = Sendzimir
 - DF = Defender
